REACH Compliance Declaration

Dear Valued Customers,

Registration, Evaluation, Authorization, and restriction of Chemicals (REACH) is a regulation of the European Union adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals. The regulation came into force on June 1, 2007 and established the European Chemical Agency (ECHA) to check whether registrations are following the requirements of this Regulation.

As of January 28, 2021, ECHA has placed 72 substances in the Annex XVII which is the list of restricted hazardous substances. As of January 19, 2021, ECHA has placed 211 substances in the Candidate List of Substances of Very High Concern (SVHC) which is updated January & June of every year. To comply with the regulation, companies have to notify ECHA, and their customers, if substances listed on the Candidate list are present in their products above a concentration of 0.1% by weight.

Our Statement

The Gill Corporation honeycomb core, panels and laminates do not contain substances from the Annex XVII list. The Gill Corporation honeycomb core, panels and laminates do not contain substances listed on the Candidate List of SVHC present in concentrations above 0.1% by weight.

With this stated, The Gill Corporation does not fit within the scope of entities obligated to pre-register and register with REACH.

Customers should be aware that post-processed, assembled, and fabricated parts that contain Gill products are not covered by this declaration as we cannot guarantee their overall composition meets REACH requirements.

It is the intention of The Gill Corporation to identify and continuously monitor the presence of all substances within our products. We are committed to fulfill our legal obligations under REACH and seek to uphold our role in the necessary communication network needed to support REACH compliance.

Should you have further questions, please do not hesitate to contact us.

Thank you,

Damaris Navar

EHS Manager
